

**Sum of Total Household Income Of Region IX and Region IV-A**

**CALABARZON (Region IV-A) has a much higher total household income compared to Zamboanga Peninsula (Region IX).The bar for CALABARZON is more than three times taller, which means families in CALABARZON earn far more money overall. This suggests that CALABARZON is more economically developed, has more jobs, and has bigger industries, while Zamboanga Peninsula has lower income levels and is generally more rural.**

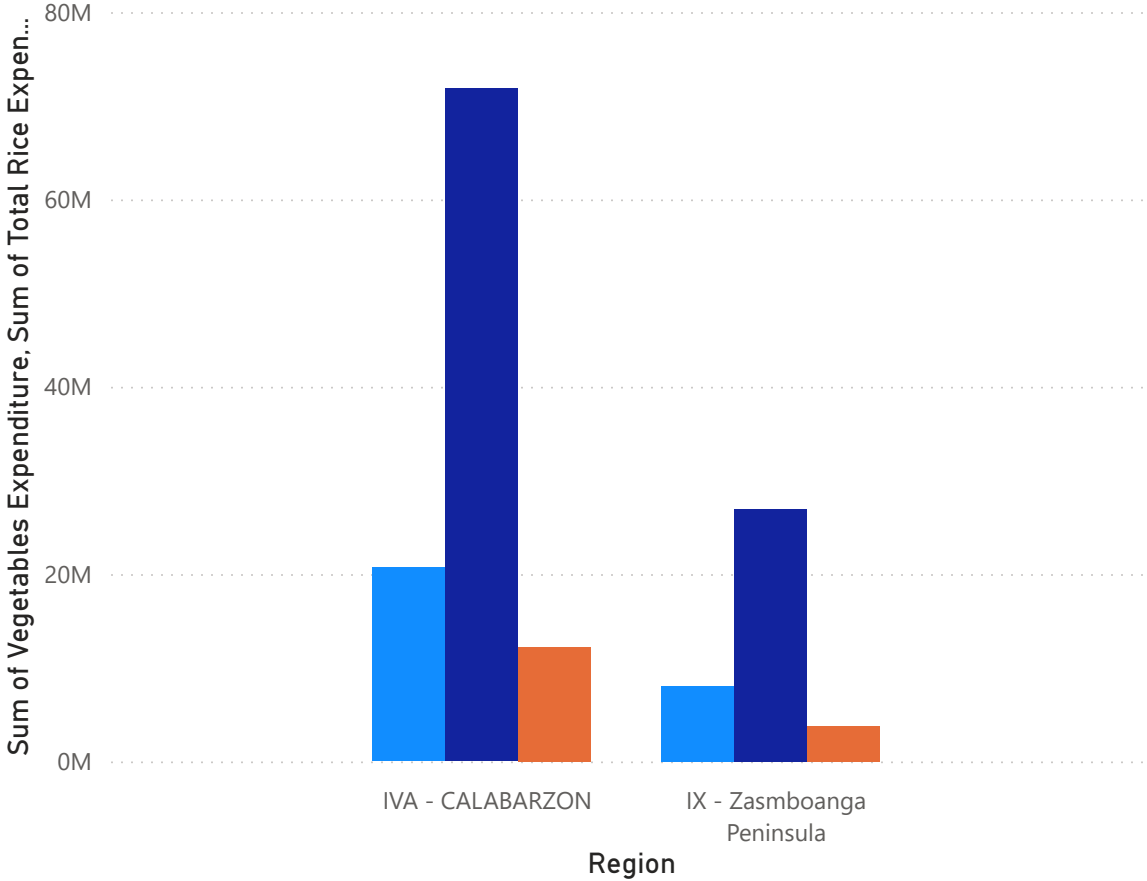

**Food Expenditures of Families in Region IV-A and Region IX**

**Families in CALABARZON (Region IV-A) spend much more on food compared to families in Zamboanga Peninsula (Region IX). This is likely because CALABARZON has higher income levels and more households, so people can buy more food and spend more overall. Meanwhile, Region IX shows lower total food spending, which suggests lower income and smaller household consumption.**

Sum of Vegetables Expenditure, Sum of Total Rice Expenditure and Sum of Fruit Expenditure by Region

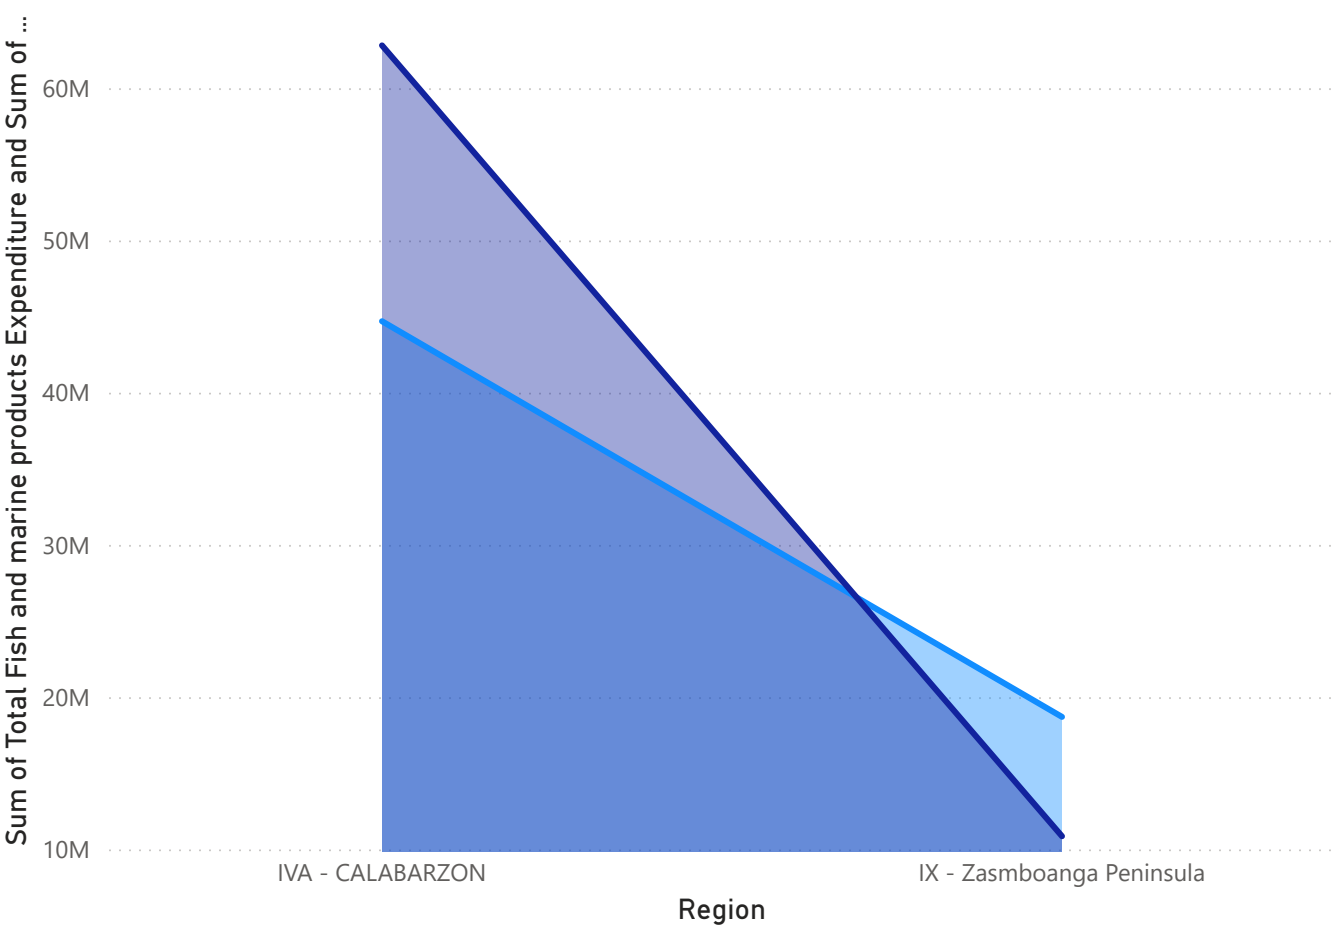

Sum of Vegetables Expenditure Sum of Total Rice Expenditure Sum of Fruit Expenditure

Rice has the highest total expenditure in both regions, meaning rice is the main food priority. CALABARZON has higher spending on vegetables, rice, and fruits compared to Region IX. Since Region IX is more provincial, its total food expenditure is lower. Among the three food groups, fruits have the lowest expenditure in both regions, showing that they are the least prioritized in spending.

Sum of Total Fish and marine products Expenditure and Sum of Meat Expenditure by Region

Sum of Total Fish and marine products Expenditure Sum of Meat Expenditure

CALABARZON has higher spending on both fish and meat compared to Region IX. In CALABARZON, meat expenditure is higher than fish, while in Region IX, fish expenditure is higher than meat. This suggests that people in Region IX, which is more provincial and coastal, rely more on fish, while people in CALABARZON spend more on meat.
